Wooden Stick Activity

## A Rooster

This picture of rooster has been prepared by knife or wooden stick painting. Observe it carefully and try to create the same effects on the next sheet.

**Step 1 :** Cut the foam in the shape of the sole.

**Step 2 :** Double the cloth and trace out the shape of the foam. Draw another boundary one centimetre away from the traced boundary.

**Step 3 :** Run a stitch on the inner boundary, joining the two cloth pieces leaving an opening to insert the foam. Turn the cloth inside out and put the foam.

**Step 4 :** Repeat the same procedure to make the strap. This time cut the foam into four identical rectangular bands- two straps for each slipper. Remember, you have to make two folds to get four equal sized cloth covers for the straps.

**Step 5 :** Make a bow with the ribbon and stick it on the strap. You can also do some embroidery on it.

**The slippers are ready.**

## The Slippers Material

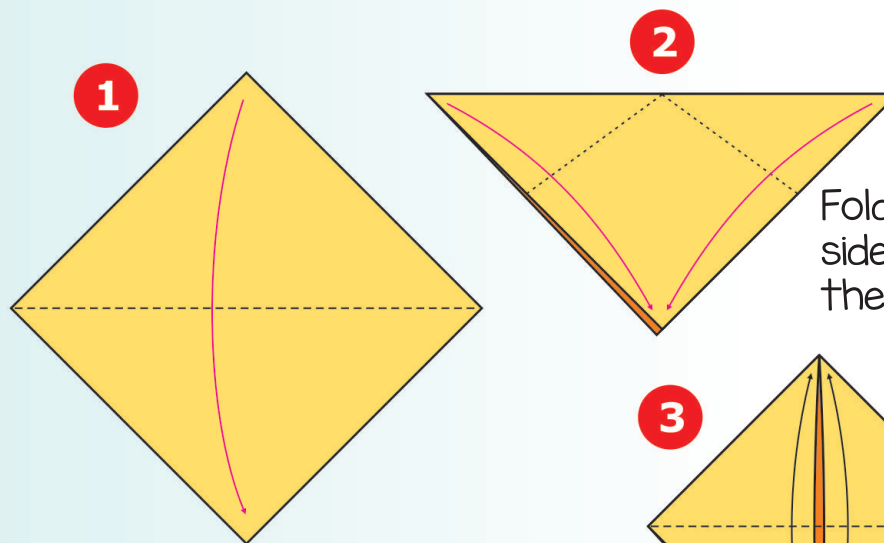

- The soles of any old pair of slippers
- A sheet of foam
- Cotton cloth
- Ribbons
- Adhesive
- Scissors

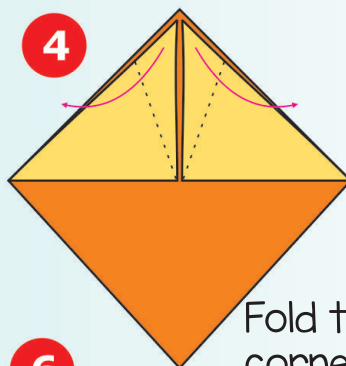

## A Headgear

Prepare a headgear with the help of paper.

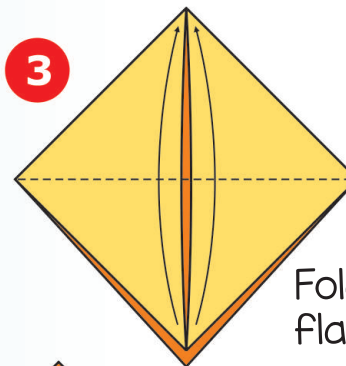

1  
Fold the sheet of paper as shown.

2  
Fold both the side triangles for the centre.

3  
Fold the outer flaps upwards.

4  
Fold the upper triangle upwards.

5  
Fold the upper triangle upwards.

6  
Fold the upper triangle upwards.

Pencil Shading

## A Custard Apple

Here is a picture of custard apple for you, created by pencil shading. While penciling always keep in the mind light and dark shading effects and strokes. Now you have to create a new one.

# Drawing & Colouring

## My Favourite Book

Art Ideas is my Art Book. It is taught many interesting things.  
Draw this book and colour as shown,
