In The Garden

Mrs. Haider, Sajjad and Bina are in the garden. Sajjad has a spade. He is going to plant some seedling. Bina is going to water the plants. “Don’t give any water to those rose bushes. They don’t need more water!” Mrs Haider says to Bina.

Bina goes to water the plants. She waters the rubber plant and the sweet peas. She sees some bees flying around the flowers. “Mother, why are the bees flying around those flowers?” she asks. “They are sucking nectar from the flowers. Bees like nectar. They use it to make honey”.

Sajjad has finished planting the seedling “Mother shall I pick the mangoes? There are some ripe mangoes on the trees” “Yes Sajjad, we can have mangoes after lunch. We haven’t had any fruit for some time”. Bina has finished watering the plants. She helps Sajjad pick the, mangoes.

Then they go into the house “Children, it is almost time for lunch!” Mrs. Haider calls, “You must be very hungry by now. Wash your hands, and come to eat”.
