Work Sheet

# ••••• Preface •••••

The comprehension worksheets have been designed to improve the understanding and comprehending ability of the student.

As you know that now a days the worksheets are a complement and essential extension for the language skills.

These five books have been divided into topics (chapters). Care has been taken to focus attention familiar to the child i.e. the home, the school, the park, neighbourhood etc.

These worksheets are gradually broadened to include aspects of social life and topics of general knowledge. While more reading and writing activities are included as a development on the earlier oral foundation. Some moral stories and topics have also been added which will definitely help your child in his/her character building.

Beautiful illustrations are given with each passage so that the student can comprehend the subject matter.
